Skills

- Empatize**
Understanding the user needs and problems, being one of them, feeling their fear and frustration and helping to find the best solution for them.
- Listen**
No matter who's in front of me, a user, a team mate or a client, listening is a golden key for a good and efficient communication.
- Collaborate**
I love working as a team, being autonomous. Propose and listen to ideas, manage my times and commitments. I love learn and teach new stuff everyday.
- Design focused with autonomy**
Design with autonomy, focus, collaboration, and confidence as key factors in any organization, startup or team. Goal oriented designer.
